Welcome

People get involved with GDI for different reasons, simply to create and work with their own web site, or to establish an enormous passive global income automatically.

As an “Owens Team” member we want to be certain you achieve precisely what you joined GDI to accomplish. The following information will steer you in the right direction and we want you to know that as part of our team we are pleased to assist you any time.

1. Create Your Own Web Site (Set up your new email address)

At Global Domains International, a special site has been set up to handle all of your needs. Simply sign in at: <https://website.ws/utilities>

After signing in to the members-only site, don't forget to scroll down to "EMAIL" and set up your new email account - it's easy to do and you can add that contact to your new web page. You actually are able to create ten separate email addresses and access your email from any computer, anywhere in the world.

Just about everything you need to know about your GDI business, including marketing material, downline information, site builder, an automatic invitation system, commissions and much more is here at <https://website.ws/utilities> and we urge you to explore all the different areas.

If it's your first visit, you will likely be guided through the process of setting up your web page. As you become more proficient, you will want to add things in and make changes. To do that, sign in as usual; click on "DOMAINS" and then "SITE BUILDER". Here you can completely change, edit and add things to your website until you are totally satisfied with the results.

2. Build Your GDI Business. (Generate Exponential Global Passive Income)

For those of you who have decided that the time is *now* for you set bold new levels of financial independence, and you want to achieve these levels, quickly and efficiently, we have an “ATM” plan and it is waiting for you to download it > [Click Here](#)

Also, wouldn't it be nice if someone would:

Create a “recruitment” web site for you, with your name and information encoded?

Offer a professional presentation to your qualified leads at your website 24/7?

Sign up these individuals on your behalf?

Notify you by email when you have new team members?

Provide all the necessary training for new members?

Set up their recruitment sites?

Provide support and training for your entire team?

AUTOMATICALLY!

It is not a dream it is a reality

For example you already have three professionally developed web sites fully encoded with your contact information that you can refer prospects to immediately. Simply change “userid” to your **userid**. Try it out and enjoy.

<http://www.website.ws/userid>

<http://www.my.ws/userid>

<http://www.freedom.ws/userid>

By utilizing the [ATM](#) plan in conjunction with the GDI and Web Legacy sites, everything is in place to allow you to confidently and effectively become a part of a vital solution. You are now able to provide and refer a truly useful, reliable, affordable service, delegate the selling, entrust the training and focus your time and efforts to simply referring and introducing new people to the concept. As a direct result, you and your organizations will generate substantial incomes for life. All that's left for you to do is follow the [ATM](#) plan, activate new members, answer the emails, send them this welcome, include the [ATM](#) plan and cash your monthly checks.

It's choice - not chance - that determines your destiny."

Together, you will set up your email account, publish your own web site in less than 20 minutes, and discover how to add text, pictures, links and much more. We want you to fully experience how easy it is to type, click and point your way to a professional looking web site of which you can truly be proud.

And for all of you potential Executive Directors out there, you are about to discover that the "ATM" plan is an effective system for building your business to five figures of monthly income, in about six months, all totally within your reach and achievable.

As part of my team, I would consider it a pleasure to spend some time on the phone with you in front of your computer to insure your expectations are not met, but truly exceeded.

Awesome wishes,

Garry Owens
